## EDUCATION

|                                                                              |      |
|------------------------------------------------------------------------------|------|
| <b>M.Sc. Information Technology</b> , University of Mumbai   CGPA: 9.00      | 2026 |
| <b>B.Sc. Information Technology</b> , University of Mumbai   CGPA: 9.15      | 2024 |
| <b>Higher Secondary Certificate (HSC)</b> , Maharashtra State Board   89.50% | 2021 |

## SKILLS

**Languages:** PHP, JavaScript (ES6+), Python, Java (beginner), SQL, HTML5, CSS3

**Backend and Databases:** Laravel, MySQL, RESTful APIs, SaaS Architecture, Payment Gateway Integration

**Frontend:** React (beginner), Bootstrap, Tailwind CSS, HTML5 Canvas

**AI Integration:** LLM API Integration (OpenAI and others), AI Automation, Prompt Engineering, Computer Vision

**Tools:** Git, GitHub, VS Code, Postman

## EXPERIENCE

**Web Developer**, Traction Shastra Sept 2024 – Present

- Developed full-stack web applications using Laravel, PHP, and MySQL with integrated JavaScript frontends
- Built AI automation workflows with LLM APIs to streamline data processing and improve business efficiency
- Optimized API endpoints and MySQL queries to improve application speed

**Web Developer Intern**, Traction Shastra May 2024 – Aug 2024

- Built backend features and RESTful APIs in PHP
- Developed frontend modules with HTML, CSS, and JavaScript in collaboration with the team
- Debugged critical issues and maintained code quality across web modules

**Web Developer Intern**, Bharat Intern Oct 2023 – Nov 2023

- Built a responsive portfolio website with client-side form validation, using Git for version control and deployment

## PROJECTS

**Vivha Setu** – Wedding Management Platform [LinkedIn Post](#)

- Developed a wedding management platform from concept to deployment using Laravel, PHP, and MySQL
- Integrated LLM APIs to automate expense categorization and event scheduling
- Designed a dashboard for guest management and real-time budget tracking

*Tech: Laravel, PHP, MySQL, JavaScript, LLM APIs*

**CtrlBiz** – AI Business Management Platform (SaaS) [LinkedIn Post](#)

- Built a SaaS platform for Indian small businesses (salons, restaurants, retail, clinics, freelancers) to replace paper registers and disconnected tools
- Developed an AI invoice generator with GST support and an AI assistant that answers business questions, fills forms, and automates routine tasks
- Implemented booking, inventory, customer and staff management, QR menu ordering, analytics dashboard, and Razorpay payments with Hindi and English support
- Designed the system architecture and REST APIs for the full-stack application

*Tech: Laravel, React, MySQL, Tailwind CSS, Razorpay, LLM APIs*

### Other Projects

- Cyber Inceptor** – AI hand-tracking game suite: built a gesture-controlled shooting game in the browser using computer vision and HTML5 Canvas with low-latency interaction [Live Demo](#)
- Friday – Python desktop voice assistant using speech recognition to control applications, fetch real-time information, and automate daily system tasks

## CERTIFICATIONS AND ACHIEVEMENTS

- Prompt Engineering for Developers (short course), DeepLearning.AI
- Presented Vivha Setu at Aavishkar Zonal Round; authored and presented a research paper at Confab 25 International Conference
